5. Qualifications: **Phd English Language Studies**, Universiti Kebangsaan Malaysia (UKM), Malaysia.
M.A. TESL, Universiti Kebangsaan Malaysia (UKM), Malaysia.
B. Ed. TESL, Universiti Putra Malaysia (UPM), Malaysia
Dip. ESL, Universiti Malaya (UM), Malaysia
Cert. Ed. TESL, Lembah Pantai Teacher Training College, Kuala Lumpur, Malaysia

6. Research Interest: Teaching of English as Second Language (TESL), English for Specific Purpose (ESP), Applied Linguistics, Technology-enhanced teaching and learning, Engineering Education, Computer-mediated Communication, Multimodal Communication

7. Biography: Indra Devi S who is presently a Senior Lecturer at the Department of Languages, Centre for Languages and Human Development, Universiti Teknikal Malaysia Melaka has been serving as an English language instructor for the past 33 years. She conducts various courses and consultancies for undergraduates and post graduates, teaching engineers and professionals in government and statutory bodies. She has gained vast practical experiences in relation to communication skills and competencies among engineers as well as its implications towards global engineering practice. She has also authored various scientific journal articles and several books. Her past research topics include Oral Communication Apprehension, Communication Competencies, Strategic Competence and Oral Presentations of Undergraduate Engineers. Her other research publications include topics related to university-industry strategic alliances, employer engagement in teaching and learning, multimodal and multiliteracies'

approaches as well as neuroscience intervention in ESP instruction for engineers. Her recent book, Grammar for Technical Writing which was published by Pearson Publishers was specifically written for engineers.
